Explanation/Clarification

This Group Forest Certification Standard was adapted the Programme for the Endorsement of Forest Certification (PEFC) International Standard, PEFC ST 1002:2018 Group Forest Management Certification – Requirements. There will be necessary modifications in future according to national laws and regulations related to standard development, situations of country and this standard was adapted by the Myanmar Forest Certification Committee (MFCC) on January 26, 2021.

1 Scope

This document defines the requirements for group forest management certification which allow the certification of a number of forest owners/managers under one certificate under the Myanmar Forest Certification Scheme (MFCS).

Group forest management certification requires establishing a specific management structure that includes the individual forest owners/managers. This entity represents the individual owners/managers in forest management certification in order to ensure the correct implementation of the sustainable forest management certification standard and provide a sufficient level of confidence in sampling-based certification activities.

Note: The term “group certification” is equivalent to the term “regional certification” or other terms chosen by individual forest certification schemes where a number of individual forest owners are certified under one certificate.

PEFC ST 1002:2018 Group Forest Management Certification – Requirements

3 Terms and Definitions

Affected stakeholder A stakeholder who might experience a direct change in living and/or working conditions caused by activities of the group organisation.

Note 1: Affected stakeholders include neighbouring communities, indigenous people, workers, etc. However, having an interest in the subject matter of the standard (e.g. NGOs, scientific community, civil society) is not equal to being affected.

Note 2: A stakeholder who might be a user of the standard is likely to become a certified entity, e.g. a forest owner in the case of a forest management standard, or a wood processing enterprise in the case of a chain of custody standard.

Audit Systematic, independent, documented process for obtaining records, statements of fact or other relevant information and assessing them objectively to determine the extent to which specified requirements are fulfilled.

Certified area The forest area covered by a group forest certificate representing the sum of forest areas of the participants.
(or)
The certified area is the sum of forest areas of the participants and covered by a group forest certificate.

Documented information Information required to be controlled and maintained by an organisation using any format and media, from any source.

Document confirming participation in group forest certification A document issued to a participant that refers to the group forest certificate and that confirms the participant as being covered by the scope of the group forest certification.

Note: This document may be for instance a sub-certificate or a confirmation of participation.

Forest Owner/Manager	Person, group of people or legal entity having the legal or tenure right, or executing traditional or customary tenure rights, to manage the forest in a clearly defined certified area, and the ability to implement the requirements of the sustainable forest management standard in this area.
Group entity	<p>A legal entity that represents the participants, with overall responsibility for ensuring the conformity of forest management in the certified area to the sustainable forest management standard and other applicable requirements of the forest certification system. For this purpose the group entity is using a group management system.</p> <p>Note: The structure of the group entity should follow the operations, number of participants and other basic conditions for the group organisation. It may be represented by one person.</p>
Group forest certificate	A document confirming that the group organisation complies with the requirements of a sustainable forest management standard and other applicable requirements of the forest certification system.
Group forest certification	Certification of the group organisation under one group forest certificate.
Group management plan	Documented information specifying objectives, actions and control arrangements. It covers planned changes of the group management system and requirements of the sustainable forest management standard which are covered on group level.
Group management system	Set of interrelated or interacting elements of an organisation to achieve the objectives and outcomes of the sustainable forest management standard.
Group organisation	<p>A group of participants represented by the group entity for the purposes of implementation of the sustainable forest management standard and its certification. A binding written agreement shall be established between a participant and the group entity.</p> <p>The term “group organisation” is equivalent to the term “regional organisation” if the group is defined by regional boundaries or other terms chosen by the relevant forest certification scheme and complying with the content of this definition.</p>
Internal Audit	Systematic, independent, documented process for obtaining records, statements of fact or other relevant information and assessing them objectively to determine the extent to which specified requirements are fulfilled, undertaken by the group organisation itself (first party audit).
MFCS	Myanmar Forest Certification Scheme. MFCS is contained in a range of documents including MFCC policies, Standard Operating Procedures, other supporting system documentation, and the MFCS Forest Certification Standard.
Monitoring	Determining the status of a system, a process or an activity.
Organisation	Person or group of people that has its own functions with responsibilities, authorities and relationships to achieve its objectives.

Participant	<p>A forest owner/manager covered by the group forest certificate, who has the ability to implement the requirements of the sustainable forest management standard in a certified area.</p> <p>Note: The term “ability to implement the requirements of the sustainable forest management standard” requires the entity to have a long-term legal right, tenure right or traditional or customary tenure rights to manage the forest and would disqualify one-off contractors from becoming participants in group forest management certification.</p> <p>Where regional or national systems allow contractors without long term management rights for a specific forest area to participate in group forest certification, the system shall ensure that these contractors can only make PEFC claims for material originating from certified areas of participants or individually certified forest owners/managers with long term legal or tenure management rights.</p>
Policy	<p>Intentions and direction of an organisation, as formally expressed by its manager/owner or the group entity.</p>
Stakeholder	<p>A person, group, community or organisation with an interest in the subject of the requirements of the standard.</p>

4 Context of the group organisation

4.1 *A general framework for the group organisation shall be determined:*

- a) regional groups: group of forest owners/managers defined by regional borders and
- b) other groups and/or
- c) whether there are any other specific circumstances which influence the implementation of the group management system.

4.2 *The group organisation shall identify:*

- a) the affected stakeholders that are relevant for the group management system and
- b) the relevant expectations of these affected stakeholders.

4.3 *Scope of the group management system*

4.3.1 Clear definitions are provided for the following terms, which are in conformity with the definitions of those terms presented in the PEFC ST 1002:2010 Group Forest Management Certifications.

- a) the group organisation and the elements of the group organisation (group entity and participant),
- b) the certified area,
- c) the group certificate and
- d) the document confirming participation in group certification.

4.3.2 The establishment of the scope for the group management system the boundaries and applicability of the group management system shall be determined.

4.3.3 Requirements of the sustainable forest management standard may be fulfilled on group level.

4.3.4 Scope shall be made available as documented information.

4.4 *Group management system*

4.4.1 All participants shall be subject to the internal monitoring and the internal audit programme.

4.4.2 The standard requires that a certified PEFC chain of custody system shall be in place if a group entity acts as a trader of forest based material not covered by group certificate.

5 Leadership

5.1 *Organisational roles, responsibilities and authorities*

5.1.1 Functions and responsibilities of the group entity

The functions and responsibilities of the group entity are as follows;

- a) to implement and maintain an effective management system covering all participants of the group;
- b) to represent the group organisation in the certification process, including in communications and relationships with the certification body, submission of an application for certification, and contractual relationship with the certification body;
- c) to establish written procedures for the management of the group organisation;

- d) to establish written procedures for the acceptance of new participants of the group organisation. These acceptance procedures shall cover at least the verification of the applicant's information about contact details, clear identification of their forest property and its/their size(s);
- e) to establish written procedures for the suspension and exclusion of participants who do not correct/close nonconformities. Group participants excluded from any certification group based on nonconformities cannot be accepted within 12 months after exclusion
- f) to keep documented information of:
 - i. the group entity and participants' conformity with the requirements of the sustainable forest management standard, and other applicable requirements of the forest certification system,
 - ii. all participants, including their contact details, identification of their forest property and its/ their size(s),
 - iii. the certified area,
 - iv. the implementation of an internal monitoring programme, its review and any preventive and/or corrective actions taken;
- g) to establish connections with all participants based on a binding written agreement which shall include the participants' commitment to comply with the sustainable forest management standard. The group entity shall have a written contract or other written agreement with all participants covering the right of the group entity to implement and enforce any corrective or preventive measures, and to initiate the exclusion of any participant from the scope of certification in the event of nonconformity with the sustainable forest management standard;

Note: The requirements for "participant' commitment" and "written contract or other written agreement with all participants" may also be satisfied by the commitment of and written agreement of a pre-existing organisation or group or the members participation, such as a forest owners'/managers' association, SFM programme and submission to tax programming, where the organisation can demonstrate that it has a legal mandate to represent the participants and where its commitment and the terms and conditions of the contract are enforceable.

- h) to provide all participants with a document confirming participation in the group forest certification;
- i) to provide all participants with information and guidance required for the effective implementation and maintenance of the sustainable forest management standard and other applicable requirements of the forest certification system;
- j) to address nonconformities reported from group members which were identified under other PEFC certifications than the particular group certification and to ensure implementation with all group members;
- k) to operate an internal monitoring programme that provides for the evaluation of the participants' conformity with the certification requirements;
- l) to operate an annual internal audit programme covering both group members and group entity;
- m) to operate a management review of the group forest certification and acting on the results from the review;
- n) to provide full co-operation and assistance in responding effectively to all requests from the certification body, accreditation body, PEFC International or the National Governing Body for relevant data, documentation or other information; allowing access to the forest area covered by the group organisation and other facilities, whether in connection with formal audits or reviews or otherwise related or with implications for the management system.

5.1.2 Function and responsibilities of participants

The functions and responsibilities of the participants are as follows:

- a) to provide the group entity with a binding written agreement, including a commitment on conformity with the sustainable forest management standard and other applicable requirements of the forest certification system; group participants excluded from any certification group cannot apply for group membership within 12 months after exclusion;

Note: The requirement for “written agreement” and participants’ “commitment” is also satisfied by the commitment of and written agreement of a pre-existing organisation or group or the members participation, such as a forest owners’/managers’ association, SFM programme and submission to tax programming, where the organisation can demonstrate that it has a legal mandate to represent the participants and where its commitment and the terms and conditions of the contract are enforceable.

- b) to provide the group entity with information about previous group participation;
- c) to comply with the sustainable forest management standard and other applicable requirements of the certification system as well as with the requirements of the management system;
- d) to provide full co-operation and assistance in responding effectively to all requests from the group entity, or certification body for relevant data, documentation or other information; allowing access to the forest and other facilities, whether in connection with formal audits or reviews or otherwise related or with implications for the management system;
- e) to inform the group entity about nonconformities identified under other PEFC certifications than the particular group certification;
- f) to implement relevant corrective and preventive actions established by the group entity.

5.2 *Commitment and policy*

5.2.1 The group entity shall provide a commitment:

- a) to comply with the sustainable forest management standard and other applicable requirements of the certification system;
- b) to integrate the group certification requirements in the group management system;
- c) to continuously improve the group management system;
- d) to continuously support the improvement of the sustainable management of the land/forests by the participants.

5.2.2 The commitment of the group entity may be part of a group management policy and shall be publicly available as documented information upon request.

5.2.3 The participants shall provide a commitment

- a) to follow the rules of the management system;
- b) to implement the requirements of the sustainability standard in their operations in their area.

6 Planning

- 6.1 If a group organisation plans any changes in the group management system, these changes shall be included in a group management plan.
- 6.2 If a group organisation decides to fulfil requirements of the sustainable forest management standard on the group level, these requirements shall be considered in a group management plan.

7 Support

- 7.1 Resources needed for the establishment, implementation, maintenance and continual improvement of the group management system shall be determined and provided.
- 7.2 The necessary competence of persons doing work is defined in the group management system.
- 7.3 Communication processes shall be in place to raise the awareness of participants concerning:
 - a) the group management policy;
 - b) the requirements of the sustainable forest management standard;
 - c) their contribution to the effectiveness of the group management system and the sustainable forest management, including the benefits of improved group performance;
 - d) the implications of not conforming with the group management system requirements.
- 7.4 *Internal and external communications relevant to the group management system includes:*
 - a) on what to communicate;
 - b) when to communicate;
 - c) with whom to communicate;
 - d) how to communicate.
- 7.5 Appropriate mechanisms shall be in place for resolving complaints and disputes relating to group management and sustainable forest management operations.
- 7.6 Documented information relevant to the group management system and the conformance with the requirements of the sustainable forest management standard is:
 - a) up to date;
 - b) available and suitable for use, where and when it is needed;
 - c) adequately protected against loss of confidentiality, improper use, or loss of integrity.

8 Operation

- 8.1 *Group organisation shall plan, implement and control processes needed:*
 - a) to meet the requirements of the group certification standard and the sustainable forest management standard and
 - b) to implement the actions determined in 6.
- 8.2 *Planning, implementing and controlling shall be done by:*
 - a) defining the necessary processes and establishing criteria for those;
 - b) implementing control of the processes in accordance with the criteria;

- c) keeping documented information to the extent necessary to have confidence that the processes have been carried out as planned.

9 Performance evaluation

9.1 *Monitoring, measurement, analysis and evaluation*

- 9.1.1 An ongoing internal monitoring programme provides confidence in the conformity of the group organisation with the sustainable forest management standard. In particular, it shall be determined:
- a) what shall be monitored and measured;
 - b) the methods for monitoring, measurement, analysis and evaluation, as applicable, to ensure valid results;
 - c) when the monitoring and measuring shall be performed;
 - d) when the results from monitoring and measurement shall be analysed and evaluated;
 - e) what documented information shall be available as evidence of the results.
- 9.1.2 Group entity shall evaluate the group management performance and the effectiveness of the group management system concerning the implementation of the sustainable forest management requirements.

9.2 *Internal audit*

9.2.1 Objectives

- 9.2.1.1 An annual internal audit programme shall provide information on whether the group management system:
- a) conforms to
 - i. the group organisation's own requirements for its group management system;
 - ii. the requirements of the national group certification standard;
 - b) ensures the implementation of the sustainable forest management standard on the participant level;
 - c) is effectively implemented and maintained.

- 9.2.1.2 Internal audit programme shall cover the group entity and all group participants. The group entity shall be audited annually. The participants may be selected on a sample basis.

9.2.2 Organisation

An internal audit programme which shall cover at least:

- a) planning, establishing, implementing and maintaining an audit programme(s) including the frequency, methods, responsibilities, planning requirements and reporting, which shall take into consideration the importance of the processes concerned and the results of previous audits;
- b) definition of the audit criteria and scope for each audit;
- c) competence of internal auditor (forest knowledge, standard knowledge);
- d) selection of auditors and conducting of audits to ensure objectivity and the impartiality of the audit process;
- e) ensuring that the results of the audits are reported to relevant group management;
- f) retaining of the documented information as evidence of the implementation of the audit programme and the audit results.

9.3 *Selection of participants in the internal audit programme*

9.3.1 General

9.3.1.1 The establishment of requirements for the selection of participants in the internal audit programme. These requirements shall include the following procedures for:

- a) determination of the sample size (9.3.2);
- b) determination of sample categories(9.3.3);
- c) distribution of the sample to the categories (9.3.4);
- d) selection of the participants (9.3.5).

9.3.1.2 Additional requirements on the regional, national or sub-national level.

9.3.1.3 Additional sampling requirements in case of participation of pre-existing organisations or group or the members participation, such as a forest owners'/managers' association, SFM programme and submission to tax programming which have their own members.

9.3.2 Determination of the sample size

9.3.2.1 The sample size shall be calculated for the participants of the group organisation.

9.3.2.2 The size of the sample generally should be the square root of the number of participants: ($y=\sqrt{x}$), rounded to the upper whole number.

9.3.2.3 The size of the sample may be adapted by a standard taking into account one or more of the following indicators:

- a) results of a risk assessment. In this case deviations of sample sizes in case of low or high risk for individual categories shall be defined;
- b) results of internal audits or previous certification audits;
- c) quality / level of confidence of the internal monitoring programme;
- d) use of technologies allowing the gathering of information concerning specified requirements;
Note: Such technologies may be e.g. the use of satellite data or drones and allow compliance statements for specific requirements of a sustainability standard or support the risk based sampling.
- e) based on other means of gathering information about activities on the ground. Note: One way could be a survey with participants who provide some information about their activities on the ground.

9.3.3 Determination of sample categories

9.3.3.1 The sample categories shall be established based on the results of a risk assessment. The indicators used in the risk assessment shall reflect the geographical scope of the standard. The following non exhaustive list of indicators may be used for the risk assessment:

- a) ownership type (e.g. state forest, communal forest, private forest);
- b) size of management units (different size classes);
- c) biogeographic region (e.g. lowlands, low mountain range, high mountain range);
- d) operations, processes and products of potential group participants;
- e) deforestation and forest conversion;
- f) rotation period(s);
- g) richness of biological diversity;
- h) recreation and other socio-economic functions of the forest;
- i) dependence of and interaction with local communities and indigenous people;
- j) available resources for administration, operations, training and research;

k) governance and law enforcement.

9.3.3.2 Conditions which constitute risk for each indicator on low, medium and high level and the respective consequences for the sampling shall be defined.

9.3.4 Distribution of the sample

The sample shall be distributed to the categories according to the result of the risk assessment.

9.3.5 Selection of the participants

9.3.5.1 At least 25% of the sample should be selected at random.

9.3.5.2 A risk-based procedure for the selection of the participants shall be specified.

9.4 *Management review*

9.4.1 An annual management review shall at least include:

- a) the status of actions from previous management reviews;
- b) changes in external and internal issues that are relevant to the group management system;
- c) the status of conformity with the sustainable forest management standard, that includes reviewing the results of the internal monitoring programme, the internal audit and the certification body's evaluations and surveillance;
- d) information on the group performance, including trends in:
 - i. nonconformities and corrective actions;
 - ii. monitoring and measurement results;
 - iii. audit results;
- e) opportunities for continual improvement

9.4.2 The outputs of the management review shall include decisions related to continual improvement opportunities and any need for changes to the group management system.

9.4.3 Group organisation shall retain documented information as evidence of the results of management reviews.

10 Improvement

10.1 *Nonconformity and corrective action*

10.1.1 When a nonconformity occurs, the group organisation shall:

- a) react to the nonconformity and, as applicable:
 - i. take action to control and correct it;
 - ii. deal with the consequences;
- b) evaluate the need for action to eliminate the causes of the nonconformity, in order that it does not recur or occur elsewhere, by:
 - i. reviewing the nonconformity;
 - ii. determining the causes of the nonconformity;
 - iii. determining if similar nonconformities exist, or could potentially occur;
- c) implement any action needed;

- d) review the effectiveness of any corrective action taken;
- e) make changes to the group management system, if necessary.

10.1.2 Group organisation shall retain documented information as evidence of:

- a) the nature of the nonconformities and any subsequent actions taken;
- b) the results of any corrective action..

10.1.3 A participant who was excluded from a group certification shall be internally audited by the group entity before it is allowed to re-enter the group certification. The internal audit shall not take place sooner than 12 months after the exclusion.

10.2 Continual improvement

Suitability, adequacy and effectiveness of the group management system and the sustainable management of the forest shall be continuously improved.
